## [Felt Puppy Sewing Kit for Mom](#)

Puppy  
Sewing Kit

ZiggityZoom.com

Ear

Items needed:

- Felt squares
- Scissors
- Tacky white glue or fabric glue
- pins/needles/thread to tuck inside

## **Instructions:**

1. Print and cut out patterns for dog head, tongue and ear.
  2. Pin patterns onto felt and cut out. also cut out a round spot, nose and eye circles.
  3. Lay dog head piece flat. Set tongue on top of inside of dog head, with tongue hanging out and arranged so this part will show when sewing kit is opened. Fold both in half to make sure positioning is correct. If need be, trim off tongue.
  4. Pin both pieces together, at center, while laying flat and open. Just below center line, and as shown on pattern, make two slits with the scissors to accomodate the ears. Ears will have to be folded in half and then woven into the slit. Insert from the bottom first, as shown. This will hold your Puppy together now.
  5. Fold closed and glue eyes and nose in place. Let dry thoroughly.
  6. Add pins, needle and a few colors of thread, rolled into tiny circles of thread. the threads will "stick" to the felt.
  7. This is a fun and useful gift that kids will love giving.
